Day 5. Fri 11 Oct: Flinders Island Touring

Light Breakfast, Lunch & Dinner

For our early risers, take an **early morning walk** along the **Lady Barron Foreshore Track**, enjoy the coastline, rocky outcrops, and spectacular views including the sunrise. After our continental breakfast we explore the north western corner of the island. We pause at **Castle Rock**, with patches of red lichen, perched on the pure white sand and overlooking the stunning Marshal Bay - this is a must do photo stop. We then continue to the remote and **spectacular mouth of the North East River** where it enters Bass Strait. The river is home to a rich variety of seabirds, black swans, pied oystercatchers, ducks and Cape Barren geese. This is another area where the contrast between the white sands and the red lichen on the granite foreshores create a particular beauty especially against a backdrop of the green shallows and deepest blue waters off shore. Next stop is the far northern area of **Palana**, a site of **WWII coastal surveillance and shelter bunkers**. Then enjoy a **light lunch** at beautiful **Killiecrankie Bay**, famous for the Killiecrankie diamonds. Following are visits to two stunning beaches for photo opportunities, **Lillie's Beach** is home to the remains of Lillie's Bay Jetty, lichen coloured boulders and crystal clear shallow waters, while **Allports Beach**, is a pristine 150mt curved beach and perfect spot to sit and enjoy a cuppa. Near Emita is the **Furneaux Museum** which contains a wonderful collection of records and exhibits of the island's natural history, maritime heritage and island lifestyle. We then arrive at the Emita Sports Ground to enjoy morning tea with our special guest **Kate Mooney**. Kate is Flinders Islands '**Wombat Lady**', who believes wombats are the cleverest of all the marsupials. Kate was given her first orphaned wombat joey about 34 years ago, and since then has become a self-taught expert on their habits and characters, and has hand raised around 150 baby wombats at her farmhouse on Flinders Island. Following the coast road past Petrification Bay we arrive in **Strzelecki National Park**, home to **Fotheringate Bay** and **Trousers Point**. Trousers Point is known for its two stunning beaches, views to off-shore islands and the towering granite crags of Mt Strzelecki, and the unusual rock features. On the other side of Trousers Point is Fotheringate Bay, where striking granite caves were formed by emerging groundwater, marine erosion and alveolar weathering of cliffs.

Day 6 contLunch is at **Mountain Seas Lodge**, nestled at the foot of Mount Strzelecki, surrounded by pristine nature and offering stunning ocean and mountain views. This afternoon we discover a little more of the **Furneaux Geology Trail** before our last stop for the day, which is at the **Unavale Vineyard**. Hear the story of the vineyard which was established in 1999, then enjoy tasting at the unique little **Cellar Door**, the perfect way to spend our last afternoon on Flinders Island.
